ALL FORD PLANTS IN U. S. ARE SHUT DOWN

Probe Charges Of Sabotage At Big Ford Plant

Company Officials At Dearborn Claim Much Sabotage Damage

ALL FORD PLANTS IN NATION CLOSED

Approximately 118,000 Persons Are Idle—Thousands More To Be Affected

By WALTER KIERNAN
International News Service Staff Correspondent

DETROIT, April 5.—Snarling under the charges of industrial sabotage which the F. B. I. is investigating, the United Automobile Workers C. I. O. today conducted its own probe of the claims of damage to valuable defense tools at the Ford Dearborn plant and prepared to place responsibility.

Company officials after a tour of the plant announced last night that aviation dies had been smashed, two of 10 open hearth furnaces wrecked and 900 tons of steel spoiled, some of it allowed to pour out at white heat on the plant floor. Blame was placed on the strikers for the damage which was estimated at well over \$100,000 for the dies alone.

Union Starts Probe
In addition to disclaiming responsibility the union today followed up its disclaimer with an investigation through its own sources in the plant—maintenance men and others—and this morning with Michael F. Widman, Jr., organizer of Ford workers for the UAW, sitting as chairman, the investigators were making their reports.

Widman said that a statement probably would be issued later in the day placing responsibility. The strong indication was that the union would name non-strikers as the saboteurs for the U. S. W. has already charged that groups of "thugs" have molested union maintenance men who were attempting to prevent damage to the furnaces and other properties.

All Ford Plants Closed
Every Ford plant in the nation was closed with 118,000 persons made directly idle and the prospects that thousands of others would be affected in the 7,000 supplier firms.

BELGRADE, April 5.—While military authorities rushed final war preparations, the Yugoslav cabinet met today in an eleventh-hour attempt to preserve peace with Germany and Italy.

In the absence of the president, Mrs. C. N. Moore presided at the business session. Mrs. Joel McKee was program leader for the day, and Mrs. Alice McKillop conducted the devotional period. An interesting review of the chapter, "War Clouds Gather in China," of the book, "Dangerous Opportunity," was given by Mrs. Charles Wettich.

Mrs. R. H. Kirkpatrick and Mrs. Alice McKillop were appointed as delegates to the Presbyterial on April 24.

The Parent Problem

By Garry C. Myers, Ph.D.

USUAL REASON FOR TANTRUM

A young mother writes:
"My oldest boy is 19 months old and for some reason he has gotten completely out of control. The least request brings on a tirade. Up until a few months ago he was exceptionally obedient. I have spanked, talked and begged, all to no avail. He stiffens his legs, and of all the grunting and fits any one ever saw, he has it. It can't be jealousy over a younger brother because I show no difference in them and besides Billie, the baby, is no trouble. Jimmie, the older boy, dearly loves his baby brother. He always begs to hug him if the baby is awake which I always grant no matter what I say, 'be doing'."

Doctor's Answer

I am sure you are a patient mother and try to show Jimmie as much consideration as the baby. But the tiny baby needs more of your time and attention. This is Jimmie's loss and he cannot quite understand. Jimmie gains attention by hugging Billie. But if you really knew, Jimmie often wishes there were no Billie. Naturally you tell your friends how good Billie is. This is different from your meaning, and suggests that Jimmie, in contrast, is bad. Just because Jimmie often gets punished, he must believe you love him less than Billie.

Praise Good Behavior

Now you cannot condone Jimmie's badness, but you can ignore much of it, and find ways to punish and command him less. When he gets the tantrum you speak of, act as if you had no more feeling than a fence rail. Should he kick or strike you, give him a spanking. Otherwise do nothing, say nothing.

Praise Jimmie more when he is good. You and Dad should read to him from picture story books, and go walking or playing with him when he is generally out of sorts.

You say he will get these "fits" when you make a request, which must mean that you treat all requests as commands. But you should not, you don't with adults. When you make a request, give him the privilege of choosing. Then on no occasion punish him, since you have made no command. Don't tell Jimmie to come here, go there, or do this; ask him. Then use persuasion; but if he fails to accede, drop the matter, don't try to force him. This will increase his stubbornness. But when you say NO or Don't (being very sure you should) he must stop at once or receive instant physical pain. Borrow my book, "The Modern Parent" from your public library, and read the chapters on stubbornness, jealousy, and punishment.

Solving Parent Problems

Is it wise to correct the child's grammar at home?
A. It is not a rule. If his parents use accurate grammar the child wishing to seem grown up will emulate them. If the parents employ inaccurate grammar their correction of the child will only annoy and confuse him. Occasionally, however, when the parent-child relationship is very companionable, a quiet suggestion in regard to a certain form of expression might be effective. The same applies to manners.

The World and the Mud Puddles

PUT THEM AWAY.

There is every indication that there is within this Nation a very active Fifth Column. It is likewise very difficult to understand just what are the aims of those who compose this Column. No doubt, the activities of many members of this Column are directed from the German Embassy in Washington.

The Dies Committee is constantly producing evidence showing vicious activities of both citizens and aliens; particularly, aliens. More than eight thousand aliens have already been ordered deported, and more than six thousand are still here, many of them criminals or agents of the Axis.

Attorney General Jackson advises Congress that the present laws be amended to permit the confinement of dangerous aliens subject to deportation. It is useless to try to enforce deportation, for some of the governments, citizens of which these aliens are, will not issue passports and there is no legal opportunity, with the seas infested with German U Boats, to actually deport them anywhere. The Nation might develop another "Devil's Island" and send them all there to fight among themselves. I think that would not be a bad idea. The Attorney General, at the same time, asks that all reasonable safeguards be written in the Act to protect the innocent and unfortunate, such as parole for those held on merely technical charges.

This emergency will increase, as our effort to aid Great Britain is intensified. Aliens who actively oppose and undermine it should be safely interned as they were in the World War. The Attorney General especially asks that Congress redefine the ambiguous terms of the law applying to membership in the German-American Bund, the Communist Party and similar organizations.

Public opinion, aroused by the attempts to block production in factories devoting their time and energy to produce weapons of defense, is demanding that something be done to stop all this sabotage.

Trust ye in the Lord forever: for in the Lord Jehovah is everlasting strength.—Is. 26:4.

HINTS AND DINTS

Sun sets tonight 6:28. Sun rises tomorrow 5:36.

If nice cold water tastes so good in the morning it's a sign that there wasn't much water drinking the night before.

There has been very little change in the style of men's pants in many years gone by. Wonder if there will be now that women are wearing them? Hope there will be no ruffles.

A burglar, training for the army, blew out two teeth at an audition. With a little dental attention, however, he should be as bad as new.

Times certainly do change. If a man walking down the street in 1924 had carried in his pocket a bottle of whisky and a \$10 gold piece, he would have been arrested for possession of the liquor. Today he would retain peaceful possession of the liquor but would be arrested for having the gold. Won't our grandchildren have a swell time paying for the good times we didn't have?—Croaker.

Judging from what we already hear there will be quite a political campaign this fall. The sound of axes being ground is heard.

A Detroit manufacturer is displaying socks made of sawdust. Woodsman, spare those splinters—mummy needs 'em to do some darning!

"I once heard a story about a man 'out west' who got himself into trouble by marrying two wives. Then a western editor replied by assuring the critic that a good many men in that section have done the same thing by marrying one. Another editor reported that quite a number of his acquaintances found trouble by merely promising to marry, without going any further.

A Hollywood actress, in her divorce suit, declares her husband beat her every day except on days when the weather was good enough for him to go to the races.

"What," asks a reader, "has become of the old rule of the thumb?" That's easy, the younger generation has changed it to "Ride by the thumb."

"Ugh, ugh, choked the young bride, 'whoever would think of such a nasty tasting thing. And it doesn't work either.'"

"What is the trouble?" comforted the young husband. "Why are you looking at your hands that way?"

Jake Rentz
News Company

Hello Jake. Well your old man blew out of here the other day to visit around with Bert Stevenson at Lakeland which come over here last week to visit your Pa.

Jake it would be a decent thing if you would look after the old man a little when he gets back on account his memory don't look to me to be as good as it used to be and goodness knows it used sometimes to be terrible. Well what happened was as follows to wit:

I was 1 (one) night sitting in front of the cannasavory with your old man when 1 (one) of the village traffic cops come along with a man. He stopped and pointed to your Pa and said this the man. The man said yes and thank you very much. I was looking for the old man to get himself locked up for some immoral deed or something but the facts were these to wit:

The man was W. T. Kerr which owns the Pensy at Philadelphia. Your Pa heard he was in town & he left a card at his boarding house marked in your old man's handwriting the following to wit. Come up & see me some time. I am at the McAllister boarding house. Fred.

Well there is lots of McAllister boarding houses in many towns but there never was any McAllister in this place. So this man Kerr stops the first traffic cop & says I am looking for a large overweight man wearing a race track suit & a violent noisy and boisterous neck tie. He says you couldn't miss it especially the tie. He said there would be no other tie like it in the whole town during the whole year. Well the cop said there is plenty of large overweight men here & lots of the same with flashy suits etcetera. But he says there is only 1 (one) man which I ever see which would fit the description about the tie. He said he is stopping at the boarding house on the next corner. I will take you to him. & he done so.

Jake it don't look good to me when the old man can't remember even where he is stopping at. He hadn't ought to be allowed to run around loose alone these kind of times away from home especially.

So long
JOE BULGER.

Now is a good time to, a lot of people to try to find out why Easter is celebrated. It is not just for the purpose of wearing new clothes.

Often we see a car standing in front of a house that is worth more than double the price of the house. Probably a mortgage on both of them.

Our dander is not in little minds, but in little minds in high place.

If photographers wish to make portraits look natural, why do they try so hard to make infants stop howling?

If all the gas stations and saloons were removed from along the roads in this country there would be a great many vacant lots.

An Irishman lay dying, when the odor of cooking assailed his nostrils. Summoning his weeping daughter to his bedside, he said:
"Norah, darlin', ain't it doughnuts I smell?"

"Right ye are, father," the girl replied.
"Would ye be askin' yer mither if I an have one before I die?"

The daughter delivered the message to the mother in the kitchen and brought back this answer:
"Mither says ye cannot have a doughnut; they're for the wake."

It is claimed that more than half the best known song writers are either dead or retired. It seems that about all the worst song writers are still working and living.

What's What At A Glance

Democracies Can Thank Mussolini
Has Mussed Up Balkan Situation
Hitler Must Fight On Two Fronts

By CHARLES P. STEWART
Central Press Columnist

WASHINGTON, April 5.—Benito Mussolini is entitled to a vote of thanks from the democracies, so they're saying at the state department. What for? Why, for mussing up the situation for Adolf Hitler, as he has, in the Balkans.

All competent observers agree that the last thing Adolf wanted was a formidable rumpus to Germany's eastward and southward, while he still has his hands full with Britain. Later on, things may be different, but two fronts at once, strategists concur, can't be difficult for him to attend to.

That, however, is what he's threatened with, due to Benito. Diplomatic gossip to the effect that Berlin all along opposed the Fascist campaign against Greece as a hazardous move, though, was anxious to score a grab of its own, probably not very generous toward the Italians, if the former won over John Bull and the Italians hadn't registered their hoped-for conquests in the meantime. So Benito went ahead with his attempted program regardless of his senior partner's wishes.

If he'd made short work of the Greeks, maybe it wouldn't have mattered much to the Fuehrer. But he fiddled so hopelessly that Adolf could hardly avoid helping him. The presumption is that he wouldn't have cared a hoot on the Italians' lone account. The trouble was that having the Fascists licked amounted to a reflection on the whole Axis; a question of prestige was involved—German as well as Italian prestige, since the two are linked together, at least nominally.

Well, the only way the Nazis can get into Greece is via those eastern and southeastern European countries.

Others Scared, But—

They have Austria, Hungary, Bulgaria, Rumania and their immediately adjoining territories buffaloes by the mere process of scaring 'em half to death and Italy already has Albania dominated. Yet their popularly elected, not a bit dependably Nazi-istically, legal, considerable proportions of 'em would be likely to revolt if they thought they stood a chance of getting away with it.

And now Yugoslavia threatens to set 'em going.

To be sure, Yugoslavia isn't solid. The Serbs are anti-German, but the Croats are said to be pro-Nazi. Adolf may succeed in instigating a Yugoslav civil war. It would be a mean job of Herr Hitler to fight his way through it to Greece, the Dardanelles and thereafter. It isn't a good region for a mechanized blitzkrieg, either. It's geographically rougher than a tin lantern—ideal for guerrilla activity, and those Balkanites are vicious guerrillas.

The Greek record speaks for itself. Turkey's anti-Axisically mobilized, and Russia's steadily turning more and more anti-German, despite its loose company with Berlin. It isn't regarded as overly efficacious military aid, at her press conference, in a modified way she reiterated this attitude. She then advised the public not to become "overly excited" about the labor situation. "After all," she said, "the country is not at war and people ought not to behave as though a strike problem were a case

GRANDPARENT CONFESSION

Can it be that he is better than the baby that we had.
The little chap that hurried down the years to be his dad?
Did his father lack the magic and the most entrancing ways
And the smartness and the wisdom which his little son displays?
What is it that sets us saying as we sit at home alone?
We think the children's children so much better than our own?

Can that lovely little Ellen truly lovelier seem to us
Than our Janet as a baby and not half the care and fuss?
Her grandfolks used to tell us—now it seems so long ago—
Such a happy little spirit they had never hoped to know.

She was prettier and wiser and was better every way
Than her mother's a baby. Yes, that's what they used to say!

Is it possible I wonder that's what grandfolks always think
As they gaze in admiration on those dimpled cheeks of pink?
Is it fact or pretty fiction—is it just because they share
All the glorious fun of childhood without its attendant care?
But it seems to be the notion of all grandfolks I have known
That somehow the children's children are much better than their own.

Now to everyone who'll listen here's the line that we employ:
"We didn't know that babies could be constantly a joy!
When his doting dad was little oft our patience he would try,
There were times when he was fretful, but these babies never cry!"

They are always bright and smiling and it's very clearly shown
That the children of our children are much better than our own.

Responsibility

WASHINGTON, April 5. THE truth about the strikes with which this country, trying its best now to meet a great crisis, is afflicted should be plainly stated and generally understood. The basic fact behind them is the encouragement given by the President—and the President's wife. Under the circumstances, it is not surprising they have become epidemic.

WITH every desire to support Mr. Roosevelt in his foreign policy, which is right, and in his defense program, which is vital, it is difficult to see how anyone who fully grasps the facts, and whose mind is not wholly closed, can support his labor policy, which is wholly one-sided. That tends to frustrate and nullify his other efforts, and it is an astounding thing that, in the face of an emergency so grave, he should persist in it.

TAKE the record from the start of the defense effort. In his first speech to the nation on the subject the President emphatically rejected the suggestion that there should be any relaxing or modification in the New Deal labor laws, which clearly stand in the way of speed. In another early utterance he declared that there must be "no backward step" so far as "social gains" are concerned and no relinquishing by labor of its rights, though he insisted that everybody would have to make "sacrifices." He emphasized this labor-favoring attitude in the defense setup by balancing every industrialist with a paid professional labor leader upon whom he conferred "coequal power." This "balanced-board" procedure, in itself, negated the idea of unity and stressed controversy instead of cooperation.

NOR was the situation improved when weeks ago, with members of his own defense commission appalled at the delay caused by the strikes, Mr. Roosevelt, at a press conference, asserted that the strikes were trivial and that their number and importance were exaggerated by the newspapers. This came just after Mrs. Roosevelt's open encouragement, by her presence and speech, of a strike in Brooklyn. Addressing the strikers, she criticized employers and voiced approval of the strike. Last Tuesday, at her press conference, in a modified way she reiterated this attitude. She then advised the public not to become "overly excited" about the labor situation. "After all," she said, "the country is not at war and people ought not to behave as though a strike problem were a case

farly, but it's numerous and resourceful.
Meanwhile, by starting trouble with Britain in North Africa, Benito's managed to concentrate a big British force in the neighborhood. It already has whaled the tar out of the African fascists and is ready to come to the aid of the anti-Nazi Balkan element, in fact, it's arriving in advance, in the southern Balkans. Furthermore, all assistance in the form of anti-Nazi war supplies, is available from Uncle Samuel.
It's an ugly outlook from Herr Hitler's standpoint. And Signor Mussolini, by his Greek and African muddling, provided the background for it. That's why it's reckoned that the democracies ought to grant a medal to him.
No particular gratitude is due to Japanese Foreign Minister Yosuke Matsuoka for having arrived in Berlin just as Herr Hitler suffered his Yugoslavian setback. His presence there at that special juncture was only a coincidence.
Nice Coincidence
The synchronization of events couldn't have been improved on if it had been arranged deliberately. Minister Matsuoka landed at Nazi headquarters on the very evening of the day on which Herr Hitler had bulldozed Prince Paul's Yugoslav government into signing its friendly pact with him.
"Lookit," said Adolf, showing the bargain to Mr. Matsuoka. "Now's the time for you Japs to do something active, pro-Axis. Grab Singapore from Britain, or we shan't have much further use for you."
Next morning, with Mr. Matsuoka still on hand, Prince Paul and his principal advisers had fled to Greece and King Peter's new outfit was on the job at home, repudiating Prince Paul's signature.
What'll Mr. Matsuoka report when he gets back to Tokyo?

The Great Game Of Politics

of patriotism." On Wednesday she made what was taken as another pro-strike utterance.

IS there any wonder, with the President and Mrs. Roosevelt making it so plain that this is a labor government and that their sympathies are with the strikers, that the paid labor leaders have seized the opportunity presented by the war crisis to promote their demands for the closed shop and other goals which make for complete labor domination? At any rate, there shouldn't be any surprise. When the strikes grew too menacing longer to be dismissed as trivial and the public began to be aroused, the President named a special mediation board to deal with the problem. But he "balanced" in fact, over-balanced—that board by putting on it four of the most conspicuous of the paid labor leaders, whose business it is to promote strikes and some of whom are actively directing the strikes they are supposed to mediate.

NOW that the strikes have reached a stage of such violence that Congress is on the verge of action, Mr. Roosevelt is reported as contemplating a "firmer stand." Whether he acts or whether Congress acts, whether it is the plants which are taken over or the labor leaders who are forced to yield, there is no escape from the fact that for the present intolerable situation and the costly delay that has occurred the primary responsibility rests upon Mr. Roosevelt.

HIS attitude and his words—and the attitude and words of his wife—have been an undoubted encouragement to strikes and have contributed greatly to a state of affairs which has slowed down the whole defense program and cost millions of precious man hours of work. It would be a fine thing to see the President throw off his labor obligations, rid himself of his labor bias and the fear of labor leaders bleating that he has "betrayed" them, deal with this situation courageously and definitively, with an eye only for speed in production. He has said that all other considerations should be swept aside. But he himself does not sweep them aside. So long as he shrinks from the kind of action which he must know the occasion demands, his appeals for non-partisan, patriotic support will have a hollow sound.

Palms Procession In Trinity Church On Sunday Morning

Traditional Ceremonies At 11 A. M. Service; Musical Program Arranged

Tomorrow is Palm Sunday. The day will be specially observed in Trinity church, at the corner of North Mill and East Falls streets, the Rev. Philip J. Pearson, rector of the parish officiating.

Because of their use on the first day of holy week when pilgrims at Jerusalem for the Feast of the Passover cut down branches of palm trees and strewed them in the pathway of Christ, waved them as they cheered him, down through the centuries the carrying of palms on Palm Sunday has become a sacred custom. They are being used more and more.

Daughters of the King have decorated the altars, pulpit, lectern and processional cross with palms especially obtained for that purpose. The choir and servers will carry them in procession. After the services at 7:30 a. m. and 11 a. m., they will be given to all members of the congregation desiring them. Thus the triumphal entry of Christ into Jerusalem, as recorded in the Bible, will be made as vivid as possible.

Through the courtesy of the transportation committee of the Laymen's League, Alfred E. Walker, chairman, and Robert Adams, as well as the student assistants in the four classes, students from Westminster College will attend the 11 a. m. service again. Automobiles will leave Old Main between 10:15 and 10:30 a. m.

For the service at 11 a. m., a special musical program has been prepared under the direction of Miss Isabel T. Johnson to be rendered by the senior choir.

Processional hymn 143, "All glory, laud, and honour," M. Teschner.

SIZZLING PLATTER

BY NORMAN CHANDLER, CHAIRMAN, NEWSPAPER PUBLISHERS COMMITTEE

YOU, Mr. and Mrs. Free American Citizen, have the world served up to you regularly on a sizzling platter.

You get the news, the happenings, the pictures, the facts—all fresh and hot from ten million sources. And with the news you get the "sauces" of editorial opinion, the "flavors" of the feature writers—all garnished with the cartoonists' wit and byplay.

Your paper doesn't poison you or drug you into the stupidity which effects the citizens of a dictatorship after THEY sample the food their platters contain. It feeds, stimulates, strengthens you.

How IS this? Why are YOU so favored?

YOU HAVE EARNED THIS DISH OF FREEDOM. In the first place, you are guaranteed freedom of speech and thought and opinion in your basic law. You have given every man the right to report what he sees and thinks—in a newspaper, a telegram,

from a soap box or a radio station. You have done this so you can hear ALL sides, then decide for yourself what course you will follow.

You have given NO MAN—not the businessman, not the minister, not the governor, not the President of the United States, not even the Supreme Court—the right to keep NEWS from you.

You have even kept the final power over the very newspapers which serve you!

YOU HAVE KEPT THIS POWER because truth is the oxygen of Democracy. Without truth, the system would expire. Newspapers must be free to provide this truth—free to criticize, free to praise, free to report with honesty.

This is FREEDOM. This is DEMOCRACY. And most good Americans WANT IT THIS WAY!

Over 300 leading newspaper publishers join together to bring you this weekly message about the function of the press in a free nation. Newspaper Publishers Committee, 420 Lexington Ave., New York.

UNCLE SAM'S PAY TEMPT'S JUDGES TO LEAVE THEIR JOBS
(International News Service)

PANAMA CITY, R. P., April 5.—Increased employment in the current labor boom of the adjacent American Canal zone has become so lucrative that even Panamanian judges of law are forsaking their official jobs for laboring positions paid by Uncle Sam.

According to information received by the Department of Government

and Justice, many town justices of interior villages are resigning from their jobs and hastening to secure eligibility employment cards with the United States Central Labor Office in Balboa, Canal Zone.

The Panamanian Supreme Court has been advised that the shortage of judges in interior towns has become serious with justices forsaking their \$5.00 to \$30.00 monthly jobs which pay from \$50 to \$100 monthly.

Dr. Dafoe's Column On The Quintuplets And The Care Of Your Children

(Copyright, 1941, King Features Syndicate, Inc.)

A DOCTOR'S DRAMATIC EXPERIMENT ON HIMSELF WITH ROUND WORMS.

A Japanese physician used himself as the guinea pig in an experiment to find out more about the effect of round worms on the human system. He wanted to know whether certain asthmatic attacks corresponded to the stage when these worms pass into the lungs.

He collected about two thousand eggs of round worms and swallowed them. On the fourth day he suffered from chest pains, he coughed a lot as in cases of asthma, and sometimes brought up blood as he coughed. On the same day the asthmatic were present in his sputum.

Of course, his symptoms were unduly severe because he swallowed so many of the eggs. Anyone infected accidentally would only swallow a small number of eggs. Ridding the system of round worms calls for the use of a powerful drug which in unskillful hands can be quite dangerous as can other types of home treatments of children for worms.

I recall one recent case in my practice, that of a little girl who had all the symptoms of worms known to most mothers and her mother undertook to give her a drug to kill them. The child went into convulsions a short time afterwards. The worms were killed, but the girl was left with a partially paralyzed side, probably for life.

I advise parents not to undertake treatment for worms until the child has been examined by a doctor and a treatment prescribed in accordance with the condition of his heart and body in general.

The most effective and safe drug, to which I referred above, is given early in the morning, one drop for each year of age. It is given in sugar, usually, and followed by a laxative. This laxative must be a strong one and this is one of the few circumstances under which I advise parents to give children Epsom salts or castor oil. Often a doctor will recommend that the laxative be given every couple of hours.

If the treatment is going to be successful, the worms will begin to appear in the faeces shortly after treatment has begun. If it isn't successful, the worms may not appear for 24 to 48 hours and the system probably will not be rid of them until further treatment.

It is often advisable for a doctor to be present, for occasionally when the drug begins to work a mass of these worms will create congestion in the lower intestine, and an enema must be given to help loosen the mass.

As all this indicates, the treatment for round worms is severe. Prevention is much easier and safer. Prevention means making sure that all fruits and vegetables are thoroughly washed, and that the personal habits are clean.

Reorganize Committee Groups For Girl's Center

For the purpose of reorganizing active committee groups to work with the youth of the Crawford Oakridge National Youth Administration Girls Center on Atlantic avenue, Mrs. Rose Simonis, resident director of the N. Y. A. of Pennsylvania, together with others on the staff and resident girls, entertained Thursday evening at a dinner in their N. Y. A. center dining room, with guests numbering upwards of 40.

Rev. W. A. Thornton gave the invocation.

The occasion proved most enjoyable, the girls attired in their personally made, patterned dresses with white aprons and headbands, served the full course menu which, too, was planned and prepared by them. Sharing with the local officials and guests was Mrs. Bradford Stetson of Philadelphia, a visitor at the center.

Mrs. Simonis explained that the purpose of the N. Y. A. Girls Work Experience center is to provide an opportunity of teaching the rudiments of domestic science work, the girls periodically coming from approximately 17 counties, as this is the only N. Y. A. center in western Pennsylvania. After careful selection, the girls are taught to cook, sew, be waitresses, efficient housekeepers, etc. Their talents are recognized and they are encouraged through the lines they are best suited.

Through the co-operation of the state employment, they are found in desirable positions. Not only are they graded on their work, but their personal appearance, social attitude, neatness and the manner in which they carry out their assigned duties.

Mrs. Simonis made clear the local N. Y. A. Girls center is sponsored by the Quota club and the county commissioners, with the able guidance of Dr. C. C. Green, superintendent of the public schools.

Dr. Green spoke, stating that when the local N. Y. A. center was first established, "it was the aim to keep interest sustained. Now, it is mandatory. Reports are constantly sent into Harrisburg and active committees are essential. Meetings are urged of committees who are continually functioning."

He explained how bills are paid, that federal funds are used, and stressed two purposes for the center, first, for the efficient training of ambitious girls between the ages of 18 and 25, and second, for national defense.

After discussing the work of the center, committees met with a group of resident girls and discussed their problems. Plans were made for entertainment, finances, publicity and other phases. Attention was drawn to the "Crawford Oakridge Echo," a

DAILY DOZEN

(From the Medical Society of the State of Pennsylvania)

The basement stairway is the most hazardous place in the home. It is not seen by visitors, so is often uncared for.

Brooms, mops, cans, rubbers, even roller skates languish there.

Spring cleaning should start with the dangerous basement stairs.

Cellar stairs are usually ill-lighted, narrow and without handrails.

Many fall from the bottom step, thinking they have reached the floor.

For this reason, it is suggested the bottom step be painted white. Fires often start in the basement in papers and rubbish.

Electric wiring near the washing machine should be properly safeguarded.

Wet hands on defective electrical equipment causes many accidents. The home should be made as safe as possible.

There is no time like spring cleaning time to see that this is done.

Referee Halts Baer And Nova Bout In Eighth

Lou Nova Wins By Technical Knockout, Maxie Baer Is Badly Battered At Finish

NOVA EARNS RIGHT TO BATTLE LOUIS

By PAT ROBINSON
(International News Service Sports Editor)
NEW YORK, April 5.—Lou Nova today was duly nominated for membership in Joe Louis' not too exclusive "sock of the month" club, initiation scheduled for September.

The dead-panner, slow-thinking California student of Yogi Baccus earned this dubious distinction in Madison Square Garden last night where 22,000 customers paid \$95,000 for the privilege of seeing him stop Max Baer in the eighth round of a fight that was a cross between a pie fight and a comedy skit in a burlesque house.

However, the fans enjoyed it all immensely although many of the ringwise customers voiced the thought that Baer had quit again. Be that as it may, he gave the crowd a run for its money and Promoter Mike Jacobs assured him he would have plenty of work for him.

Baer Battered
Nova contented himself with the expressed opinion that he has the toughest jaw in the world and therefore he's a cinch to discourage Louis just as he did Baer.

Baer's left eye was completely closed and his whole face looked as if it had been massaged with a club. Nova had only a slightly discolored eye to show after taking some of the hardest wallops ever thrown.

Nova's recuperative powers are simply uncanny and old timers said there never was a fighter who could take a punch like he can. Baer must have hit him at least a hundred terrific shots on the jaw and temple and the best he could do was to drop Nova to one knee in the fourth round. But the Yogi man was up without a count and before the end of the round was jabbing Max's head back with a piston-like left.

HERE AND THERE IN SPORTS LAND

Over the span of many years, Churchill Downs spent about \$100,000 annually for improvements prior to the running of each new Kentucky Derby. In 1940, Colonel Matt J. Winn, leader of the organization, directed the most elaborate improvements, and these cost around \$250,000. When there was some wondering over Col. Winn's action in more than doubling the cost, he answered with: "I've been through one war as director of racetrack properties. I learned from 1914 to 1918 that when there's a war, building materials, in price, and labor is scarce. It now develops that if the same improvements made at Churchill Downs in 1940 were contemplated this year, the cost, because of scarcity of materials, would be nearer \$400,000 than \$250,000 and it's doubtful if they could be made, owing to the fact that the government's order for steel, etc., are given preference over all others. The wisdom of Colonel Winn's activities in 1940 proves that there's no substitute for experience."

Carl Stork, president of the National Football league, resigned yesterday in Chicago to make way for a peaceful induction of Elmer Layden as the league's first commissioner.

Craig Wood is yet leading the Masters Golf tourney at Augusta, La. on the opening day he turned in a sub-par score yesterday, a 71 for a 36-hole score at 137. Byron Nelson is one stroke behind Wood.

Pacific Coast baseball got under way today with four games, Seattle at San Francisco, Portland at Los Angeles, Oakland at San Diego and Hollywood at Sacramento.

Highlights of the meeting will be a discussion regarding the coming banquet, April 30, and a study of legislation being proposed in Harrisburg. Members are asked to attend and express their opinions.

At the conclusion an appropriate movie, "Speckled Beauties", will be shown.

UMPIRES WILL MEET TONIGHT

The first meeting of the year for the Lawrence County Umpires will be held this evening at the "Y" at 8 o'clock. Leo W. Hill, president of the association, will have charge of the meeting.

All men who desire to umpire games in the city and county league are invited to attend the meeting.

Nelson-Little Chasing Wood In Masters Tourney

Craig Wood Has 137 Total,
Nelson 140 And Little 141
After 36 Holes

By LAWTON CARVER
(International News Service Sports Editor)
AUGUSTA, Ga., April 5.—Byron Nelson, the tall Texan who held the National Open golf championship in 1939 and who currently is the professional title-holder, and slugging Lawson Little, of California, present open champion, were on the trail toward the masters' championship today.

As the third round of the 72-hole classic opened Craig Wood was still in front, still banging away, still hopeful that he wouldn't again have a title stolen from his grasp in further perpetuation of his career as the Anthony Adverse of the Fairways.

But look who is charging in on him—Nelson, just three strokes back, and little, four. That's being crowded when the crowding is done by those two. Nelson, a nearly perfect all around craftsman, has been among the hot favorites from the outset and Little, with his prodigious drives and generally dependable game, has been rated with the second choices.

When they resumed the march today Wood was an even money bet, Nelson a 2 to 1 shot and Little 3 to 1 in brisk wagering, based strictly on probability with sentiment removed. Only half the distance was reached yesterday and anything can happen through Sunday's closing round, but when it does one or all of the foregoing will be in the middle of it.

Wood's 71 of yesterday coupled with his opening round 66 for a 36-hole 137 left him in a comfortable position, but scarcely beyond concern. Nelson's 71-69-140 and Little's 71-70-141 whittled something off Wood's first day margin and put them in the spot from whence to score. The can do it, and may.

The results—New Castle: McGinnis, Jesse Moore 191, J. Williams 191, Enle 189, Johns 187, Total, 952. Other New Castle strings: Mowry 178, Treva Bowers 152, W. Parsons 176, Hammond 178, Wally Bowers 170, Hockenberry 184, Watson 187, McDonald: Garman 193, Schink 191, Enle 190, Bodine 190, Schultz, Sr., 189, Total 953. Other McDonald strings: Cramer 176, Morris 187, Volpe 188, Phillips 185, Fritz 188, Schultz, Jr., 184, Franklin 181, Beckes 179, Shuller 174, Donohue 187, Boop 181, Straitwell 186, Call 184, Morgan 172, W. ENLIST TWO FOR U. S. ARMY HERE

Sergeant Owen E. Tighe, officer-in-charge of the New Castle army recruiting station, announced today that the following young men have enlisted in the army:

Stanley J. Pawlak, son of Mr. and Mrs. Joseph Pawlak, of 140 Morehead avenue. He went to engineers department, Hawaiian department.

Jacob Cimperman, son of Mrs. Mary Cimperman, of R. D. 7, New Castle. Engineers department, Hawaiian department.

Increases in income are shown to have been received from all grain and vegetable crops and from tobacco last year over 1939 but a decrease is shown in the income from fruits and nuts, the 1940 total from the last two items being \$11,704,000 as compared with \$13,469,000 the year previously and \$10,869,000 in 1938.

Income from the various crops last year is shown to have been as follows: Corn, \$4,320,000; wheat, \$8,646,000; all grains, including oats, barley, rye, buckwheat, \$14,780,000; tobacco, \$5,580,000; potatoes, \$12,561,000; truck crops, \$15,667,000; all vegetables, \$28,228,000; apples, \$6,393,000; peaches, \$1,758,000; pears, \$347,000; grapes, \$630,000; strawberries, \$1,520,000.

Hum-m-m-m! Ab! Ob! Boy!

Sandy Shuben and Audrey Moreland

Baseball is quite an attraction in the spring, isn't it? Yes, and so is this duo of softball stars practicing in Los Angeles for the coming season. The girls are Sandy Shuben, left, and Audrey Moreland. The umpire called Miss Moreland out here.

Touching a few bases—Material on hand will determine whether or not New Castle High's colors will fly in the coming W. P. I. A. L. track meet. If the "Hibernian" gravel grinders can step in that kind of competition, in the opinion of moguls, then they'll get their chance. New Castle High will not compete in the W. P. I. A. L. Golf league. The local school passed up the links sport last year, too.

Uncle Sam's draft program is cutting a big gap in local baseball circles. Because a surprisingly large number of sandlotters are wearing khaki, officials of various leagues are figuring ways and means of keeping the baseball pot boiling. The City league has already voted to cut the number of teams from 10 to 8. Chances of a City-County loop are remote, due mostly to the number of lads who have answered the call to colors.

As was chronicled here several weeks ago, Sharon and Farrell High have received formal approval from the P. I. A. A. to transfer from District 10 to District 7, provided the W. P. I. A. L. sanctions such a move. The consensus of opinion is that the western Pennsylvania schools will accept the Mercer counties. The two schools will be placed in a league with Aliquippa, Ellwood City, New Castle and Butler, if the final end of the deal doesn't hit a snag.

Cash Income Of State Farmers Is Increased

(International News Service)
HARRISBURG, April 5.—Vast improvement in the cash income for Pennsylvania farmers during 1940 over the past two years is shown in the figures just reported by Secretary John H. Light of the Department of Agriculture.

Total cash received from all marketed last year amounted to \$271,990,000 as compared with \$261,019,000 in 1939. Of these amounts income from grain crops last year accounted for \$80,001,000 as compared with \$76,151,000 in 1939 and \$191,989,000 represented the income in 1940 from livestock and livestock products as compared with \$184,868,000 the year previously.

Increases in income are shown to have been received from all grain and vegetable crops and from tobacco last year over 1939 but a decrease is shown in the income from fruits and nuts, the 1940 total from the last two items being \$11,704,000 as compared with \$13,469,000 the year previously and \$10,869,000 in 1938.

Softball League To Meet Tonight

The New Castle Class A softball league managers and officials will have a meeting at 8:30 o'clock at the "Y" this evening, it was announced by Rocco P. Viggiano, president of the league.

The following teams will no doubt have managers at the meeting—Radiators, Sons of Italy, Valentines, Lumberjacks, Willow Grove, Johnson Bronze and Gus. The following officials of the league are to be present—Anthony R. Conn, Sid Lockley, George Gailey, Ray Wallace and Charles "Bugs" Walther.

Conn Wins By Technical Kayo

Gunnar Barlund's Manager
Refuses To Let Fighter
Continue After
Eighth Round

BARLUND'S PURSE IS BEING HELD UP

By H. C. WARREN
(International News Service Sports Editor)
CHICAGO, April 5.—Approximately 15,000 spectators who paid \$31,201 to see Billy Conn of Pittsburgh fight Gunnar Barlund of Finland were of the opinion today that if Conn is the No. 1 contender for Joe Louis' title, the negro champion's crown is safe for a long time to come.

Conn was credited last night at the Chicago stadium with scoring a technical knockout in the eighth round, when Paul Damski, Barlund's manager, refused to let the Finn continue. Dr. Frank A. Lagorio, physician for the Illinois boxing commission, told Barlund and his manager that the Finn could continue. But Damski decided to call it a night.

Purse Held Up
As a result of the refusal to continue the fight, Chairman Sheldon Clark of the state boxing commission held up Barlund's purse pending an investigation. Conn collected \$8,400 as his purse.

Referee Barney Ross backed up Damski's decision. Ross said he would have stopped the bout himself and awarded it to Conn, had Barlund attempted to continue. Damski said Barlund's eyes were in bad shape and "I didn't want to have anything on my conscience."

Dr. Lagorio took three stitches in his forehead after Barlund's right eye.

The Conn-Barlund fight was one of the poorest staged in Chicago in recent years, and the crowd voiced its sentiments by keeping up an almost constant chant of "decision. The two gave a reasonable facsimile of fighting in the first round, but after that it resembled a mediocre wrestling match.

Pitcher John Rigney's spring training with the White Sox was delayed considerably by a sore arm which developed the first week out.

Strike Situation And War Possibility In Balkans Affect Market

International News Service. NEW YORK, April 5.—The strike situation and indications war was imminent in the Balkans put a restraining hand on the stock market today.

The first opened irregular and moved narrowly and indecisively in the closing bell. There was some pressure on the stocks.

U. S. Steel started nearly a point lower and then advanced later in the day. General Motors and Ford were steady. The market closed with a slight gain.

Banking stocks were quiet. Railroad stocks were generally steady, and also were less active than recently.

Utilities were steady. Mines did little of consequence.

There was some activity in Warrenton, Ore., which opened in 1400 shares. Wheat, soybeans and corn were steady. The market closed with a slight gain.

The stock market reflected the trend on the big board with most issues showing fractional declines.

British Cruiser Is Reported Sunk By Nazi Warship

(International News Service)
BERLIN, April 5.—A German warship operating overseas has sunk the British auxiliary cruiser Voltaire and the British transport vessel Britannia, the German high command announced today.

Lloyd's register of shipping lists the 13,245-ton Voltaire as a former liner of the Lamport and Holt lines, Ltd., with Liverpool as its home port.

The Britannia is listed as a former 8,790-ton passenger vessel of the Anchor line, registered at Glasgow.

In addition, the high command announced, German submarines sank another 45,500 tons of merchant shipping when they attacked for the second time a strongly protected convoy in the Atlantic.

A previous announcement said German U-boats sank 88,616 tons of ships in their first attack on the same convoy.

The robbery was committed March 25. Of the \$4,085.95, there was \$2,700 in currency, believed scorched and water-stained as entrance to the bank safe was effected by a cutting torch, and water was used to prevent the burning of the contents of the same.

It is known, according to Detective Welsh, that 40 bills of \$5.00 denominations bearing serial numbers H85190961A to H85191000A were part of the loot. Several \$5.00 and \$10.00 gold pieces, as well as a \$2.50 piece, were taken.

Any information obtained may be sent to County Detective Welsh or the FBI, Grant 2000, Pittsburgh.

New Castle Is Leader In Hospital Facilities

(Special To The News)
NEW YORK, April 5.—Although a survey of the nation's hospitals shows that population has been increasing more rapidly than have hospital facilities to take care of the growth, New Castle continues to keep itself ahead of most cities in its ability to care for its sick. The data is contained in the annual study by the American Medical association.

New Castle, it shows, has a hospital bed for every 189 people in the city, whereas the rest of the country has but one bed per 241 persons.

These figures are exclusive of federal and state institutions.

In 1940, Jameson Memorial hospital, with 147 beds, had 3,441 admissions and the New Castle hospital, 105 beds, 2,441 admissions. The beds in the two hospitals were occupied, on the average, 67 per cent of the time.

The demand for hospital facilities is growing, according to the A. M. A. Last year the nation's 6,291 registered hospitals cared for 10,087,548 patients, an increase of 208,204 over 1939. Patients arrived at hospitals at the rate of one every 3.1 seconds.

Due to the possibility of a tax abatement being passed by the present session of the General Assembly, the tax sale which was scheduled by County Treasurer Earl R. Wimer, for late in April has been postponed until July. This gives taxpayers an additional time to pay up delinquencies and if the abatement act is passed they will be enabled to pay their delinquencies in twenty percent pieces.

Deputy County Controller Andrew Dadds' arms look as though some wild cat had been doing the rumba on them. From the elbow down they are a cross work of scratches, received while fighting a woods fire near Rose Point Thursday afternoon. A call came in that a large wooded tract was ablaze and a number of volunteers rushed out.

By back firing and digging fire trenches the volunteers stopped the blaze before it got to some cottages down on the bank of the Slippery Rock Creek.

Dodds delivered himself of some choice comment about people who toss lighted cigarette butts and cigar butts into the woods. And after unloading this criticism he enlarged his remarks to include people who don't know to behave in the wooded areas.

Picnickers who strew their empty boxes and papers about the woods, amateur Daniel Boones who must sink an axe into trees, vandals who despoil the wild flower patches and rob dogwood trees, all of them came in for a blistering.

All of what he said is true. A forest fire destroys trees, shrubs and wild life. The axe wielders cut through the cambian layer of the tree and insects set up housekeeping in the wound. As for the folks who believe the great outdoors is a challenge to their garbage tossing, a well seasoned hickory club applied judiciously would help.
